Korean War Honor Roll

The Department of Defense reports that 54,246 Americans service men and women lost their lives during the Korean War. This includes all losses world wide. Since the Korean War Veterans Memorial in Washington, DC honors all U.S. Military who lost their lives during the War, it has tried to obtain the names of those who died in other areas besides Korea during the period June 27, 1950 to July 27, 1954, one year after the Korean Armistice. At the memorial is a Honor Roll database where all 54,246 should be listed. Unfortunately, a fire at the National Personnel Records Center in St. Louis, Missouri destroyed many of the records of service personnel and a complete listing is not available. To date, the database includes the names of 37,333 service men and women who died during that period. The Korean Honor Roll database, including photographs, is now on the web.

As there has been no peace treaty, those Americans who lost their lives in the Demilitarized Zone of Korea, since the Armistice have been included. The 8,196 Americans who were Missing in Action or lost or buried at sea and commemorated at the Honolulu Memorial are included in the database at the Korean War Veterans Memorial. An Honor Roll certificate for each of the American Dead included in the database is available to the public. If you are not able to visit the Memorial, you may obtain a certificate of an individual by providing his or her name to:
